Built on hands-on learning, the minor in Nonprofit Leadership and Social Innovation heightens students’ awareness of local, national and global issues and examines different approaches to social impact. Students will study the role of the nonprofit, NGO, and social sector, as well as social innovation, leadership, and the skills required for effective nonprofit management.

This minor is open to all undergrads on campus, regardless of major. Students who want to take a deeper dive, can pursue the Major in Public Policy with a focus on Nonprofit Leadership and Social Innovation.
