HELPFUL TIPS

• Understand FERPA
Student records kept by the university are private—that includes grade reports, transcripts, finances, counseling, health, and student conduct records. Therefore, we cannot discuss the contents of records with any third party without permission from the student.

Students can waive their right to privacy and grant limited access to any parent or guardian to view the student’s current class schedule, final grades, and student account balance information.

Complete details and instructions are available at registrar.umd.edu/parents/
HELPFUL TIPS

• Understand FERPA
• Discuss and set expectations
• Avoid the urge to take care of the issue for your student
• Encourage your student to make use of all available resources.
In the normal course of events, there is no problem that can arise at UMD that a student can't solve using the many resources available to them here.

Adapted from Dr. Marshall Duke, Emory University
STOP! LOOK! LISTEN!

STOP: Let your Student Tackle their Own Problem

LOOK: Help them examine the problem and brainstorm possible solutions

LISTEN: Listen with an open mind to their concerns, ideas, successes, and failures
